PROFILE

Full Stack Web Developer with experienced in teamwork and problem solving under pressure.
This experience was with a team of 5 people, taking, organizing and managing 100 orders per day, from customers, and passing them on to professional technicians, and trying to reach an agreement against any claim from the two parties.

WORK EXPERIENCE

Front End Development

StartUp | 2021

Design and animation development for e-commerce web application. HTML, CSS, JavaScript were used for interactions and validations, and GSAP for animations. With responsive design adapted for any device.
Project on hold for the moment, waiting back-end development for deploying.
